Washington, DC - Congressman Bruce Braley (D-Iowa) today announced \$45,809 for two new emergency vehicles in Jackson County. The vehicles will be equipped with radios, repeaters, cots and snow chains.

"This grant provides important funding to Jackson County for emergency situations," Braley said. "As we continue down the road to economic recovery, it's crucial that communities can ensure the safety and security of Iowa families. These vehicles equip the county to react quickly in times of emergency."

The United States Department of Agriculture provides these Rural Development funds through its Community Facility Grant Economic Impact Initiative.
